

Centre Record Policy

TRACK EVENTS

Track event records may be set using the timing gates, provided the following conditions are met:

- The starter confirms that a clean start was achieved, with no false starts.
- Under no circumstances will an athlete be permitted to set a record using a pacer. For the 100m, 200m, 400m, 800m and hurdles, record attempts must be made against athletes of the same age group and gender.
- Mixed age group and mixed gender races are permitted for the 1500m and 3000m events, provided the athlete is not being paced by another competitor.

FIELD EVENTS

Any athlete wishing to attempt a field event record must submit a request to the Committee via email at eplacresults@gmail.com. Approval will only be granted where the athlete's previous performances demonstrate a strong likelihood of breaking the existing record.

A minimum of one week's notice is required to allow the Centre to arrange the necessary officials.

Field event record attempts must be officiated by two (2) officials. If a record is broken, the result must be recorded and signed by all officials present before being submitted to the Records Officer for validation.

If a record attempt is cancelled due to weather conditions, the athlete may make the attempt at the next available competition event and will not be required to reapply.

***The Committee reserves the right to make final decisions on all matters relating to records.**

***No new record attempts will be accepted during the final two weeks of the season. The Centre may, at its discretion, consider exceptions where factors such as adverse weather conditions have limited athletes' opportunities to attempt records throughout the season.**
